Professional Experience

Senior Software Engineer @Accenture | Athens, Greece Dec 2024 – Present

- Leading offshore and onshore teams to deliver e2e software projects; from reviewing business requirements to crafting system designs, code reviewing, testing, release managing, achieving **100% on-time delivery** under strict SLA constraints.
- Spearheading the redesign of a credit origination new era-system by decoupling and refactoring Java Spring Boot microservices on Azure (**AKS, Azure Monitor, Log Analytics**), improving system uptime and reducing latency by 25%.
- Selected for TechStars 2025, recognized among the **top 1%** of Accenture's high-performing consultants globally.

Mid-Senior Software Engineer @Accenture | Athens, Greece Dec 2022 – Nov 2024

- Orchestrated the development of a loan monitoring platform for a major bank; **streamlined complex business workflows** and optimized data extraction processes, reducing build-time by 60% and secured a \$30M revenue stream.
- Reported directly to the CPO** as tech lead, driving enhancements in software delivery strategies and quality assurance practices that resulted in boosting team efficiency, product reliability and reducing production-bugs by 30%.
- Internally rotated to lead credit origination system redesign, transforming monolith to **Java Spring Boot microservices (Azure, K8s, OutSystems)**. Delivered high-stakes demo showcasing next-gen loan tech and securing client approval.
- Launched **CI/CD pipelines** using cloud/on-prem agents, **automating manual build-deploy** and cutting time by 5 mins/commit.

Junior Software Engineer @Accenture | Athens, Greece Jan 2021 – Nov 2022

- Collaborated closely with cross-functional teams to develop enterprise loan origination apps using **Java, ZK and MSSQL**.
- Integrated **Git, Checkstyle, Maven and Azure pipelines** reducing deployment errors and enabling weekly releases.
